Next, establish your 2-Step Verification by clicking on *Get started* – Two-Factor Authentication (2FA) is a security feature that helps safeguard your account information when users provide two distinct forms of identification:

### Protect your account with 2-step verification

Each time you sign into your account on an unrecognized device, we require your password and a verification code. Never share your code with anyone.

**Add an extra layer of security**

Enter your password and a unique verification code.

**Keep the bad people out**

Even if someone else gets your password, it won't be enough to sign into your account.

Get started

Choose how you would like your code delivered:

–**Voice or Text Message:** Verification codes are sent to your phone.

–**Authy:** Use the Authy app to generate a unique code to authenticate your account. Available for iOS®, Android™, and desktop.

–**Authenticator app:** Banno can support any authenticator app using either a QR code scan or manual code entry.

 **Voice or text message**  
Verification codes are sent to your phone.

 **Authy**  
Verification codes are sent to your phone or the Authy app.

 **Authenticator app**  
Using a different authenticator app? We support using any authenticator app using either a QR code scan or manual code entry.

Enter your phone number on file and click on *Next*:

### Let's set up your phone

Provide a phone number that we have on file. On sign in, this number will be used to contact you with a unique verification code to confirm it's you. Message and data rates may apply.
